**FOR IMMEDIATE RELEASE:**

**Alan C. McClure Associates Updates Corporate Website**

HOUSTON, Texas – May 18, 2018: Alan C. McClure Associates (ACMA), one of the industry's premier naval architecture and engineering firms, announced today that the company has updated its corporate website located at [www.acma-inc.com](http://www.acma-inc.com). In addition to updating the company's capabilities in Drafting and Design, Naval Architecture and Marine Engineering, Project Management, Surveys and Inspections, and Legal, Arbitration and Negotiations, the site has expanded its scope to include ACMA's expertise in Hydrostatics, Hydrodynamics and Structural Analysis. By showcasing a number of successful projects completed over the past four decades, the site also focuses on how the company applies its engineering experience to provide clients a flexible environment that encourages the application of innovative, cost efficient, customized solutions to virtually any project.

**About Alan C. McClure Associates, Inc.**

Headquartered in Houston, Texas, Alan C. McClure Associates, Inc. ([www.acma-inc.com](http://www.acma-inc.com)) is one of the industry's premier naval architecture and engineering firms, and has been providing a wide variety of engineering and design services to an international clientele for more than four decades. Projects include drilling rigs, floating production systems and support craft for the offshore petroleum industry. The ACMA team's expertise in naval architecture, hydrodynamics, marine engineering, electrical engineering, mechanical engineering and shipyard management represents all the disciplines required to successfully complete a project.
